In David Haight's second novel, Me and Mrs.

Jones, Haight movingly portrays a man and a woman's heartbreaking attempts to stay together against impossible odds. Jack Amsterdam rockets down an East River highway, drunk, away from an incomplete novel and failing marriage thinking only of escape. Under the control of her ruth mother, in a dead marriage and caring for her drug addicted brother, Cassidy Lowell's life has ended at 32. At least that's what it feels like until she discovers that her husband is cheating on her. Packing her car she heads for California and a long lost love. Responding to little more than the instinct for survival, Jack and Cassidy take flight until in the early morning hours on an abandoned highway the struggling writer and fiery mother crash into one another altering their lives and haunting them forever.
