Ferrian has been running his whole life. Running, because he has no choice. Wherever he goes, Winter follows. Wherever he sleeps, frost creeps at his door. From town to town he hastens, frightened, tired; forever trying to keep one step ahead of the cold, the snow and the devastating storms. It is a kind of curse, and Ferrian has no idea what it means. Only someone with a knowledge of magic might be able to help him, but sorcerers are nearly extinct in the world. Two brothers remain, however; the last of their once-noble kind, holed up in a secluded valley, waging their own private and very personal war. Ferrian, captured by the local law enforcers, finds himself unexpectedly amongst friends sympathetic to his cause, and together they set out on an adventure-filled quest to find the last sorcerers. What is the Winter? Can it be controlled, or is it really a curse? And how many people -- friends, enemies, innocent countryfolk -- will fall victim to the strange magical storm before Ferrian learns the answers?
