Omega werewolf Griffin Maebry has spent years of his life being experimented on in the Institute of Paranormal Research. Freedom seems like something that will never come. Until one of his guards tell him a rebel werewolf is coming to break him out. Martin Cahill isn't cut out to be a hero. But when his sister is shot and captured, he swears to take over her mission: freeing Griffin. Griffin stirs something in Martin. The alpha wolf wants nothing more than to claim the omega forever—but he's not the commitment type. And the entire world is out to get these two werewolves. Griffin's freedom may not last for long. Can a seer and his omega find happiness?
