[I'm Gonna Need a Pen: A Collection of Folktales from Woodlawn Beach Middle School.epub](#)

This book started as an attempt to encourage the creative side of my students. I would watch as many of them wrote stories and drew when they had down time. To encourage the development of their skills, we read many examples of Spanish-American folktales while studying the elements used in folktales.

The Unit culminated with the students writing their own folktales. The following stories come from the imaginations of 41 creative students. We hope you enjoy the many different styles of folktales included in this book. Many pens were lost during the creation of this book. We're gonna need more pens.
