Claire is an Omega. Adopted into a poor, small family is hard enough on her. She's more worried about getting by without bruises, avoiding the hatred, and taking care of her little brother than anything else. And then Nathaniel comes home. Nathaniel and Claire's attraction is like nothing they've ever felt before. They're pulled to each other by lust, love, anger, happiness, and sadness. They compliment, care, and defend each other. Through it all the Lycanthropes are being thrown into chaos. Alphas fight to keep their packs and relatives safe. The number of dangerous rogues increases drastically. Anger and territorial issues tear apart packs. All from the death of a single breed of wolves. Royals. The outside world refuses to be ignored. Alphas around them are starting to be killed off, packs are being taken over. A rebel group of rogues is forming, quickly overpowering packs and taking prisoners. The Lycanthropes are in trouble. If they cannot find a way to destroy these rogues soon, there won't be much left.
