"I claim this captive as my own..." With those words, Moonfeather brazenly stepped forward to save the golden-haired Englishman from the flames of Shawnee vengeance . . . by marrying him! An hour later, Viscount Brandon, son and heir of the powerful Earl of Kentington, was lying facedown on the floor of Moonfeather's wigwam, spared a fiery death . . . to endure the exquisite torment of sharing a bed with the tantalizing beauty who had rescued him. But Moonfeather, the abandoned "lovechild" of a Scottish earl, had no intention of consummating her marriage to the reckless Englishman . . . whose intense sky-blue eyes promised days and nights of pleasures beyond imagining. Yet even as conflicts raged, heated passions turned to whisperings of love. And, determined to present his exotic bride to his family, Brandon brought her to England, where they faced treachery and danger . . .

and the need to use the legendary powers of Moonfeather's enchanted necklace.
