Mercy has an incredibly boring life, so when her friend Caitlin comes home from college, she doesn't know what to do when Caitlin invites her out to meet her new college friends.

When Mercy took off with her old friend to Lake Lonely Lagoon, she had no idea her fun frolicking adventure would turn into her First Lady initiation into the local Rebels of Chaos Motorcycle Club chapter, Dirty Rebels. It only takes one day, but that one day and turn of events will change Mercy's live forever.

This new life has done amazing things for her self-esteem, but she can't help feeling that there is still something missing.

She wouldn't dare tell Cig, her new boyfriend. Everything she has is because of her relationship with him and the Dirty Rebels. Sometimes secrets run deep; so deep that not even Mercy has begun to scratch the surface. That is, until her old bestie gives her a ring.

That ring causes Mery to second guess her self-esteem and everything else in life.

Her best friend is pregnant and her new boyfriend is a loose cannon. There's a murder the next town over and Mercy's convinced herself that the Dirty Rebels are somehow wrapped up in the triangle with the Men of

Mayhem. When secrets start to unfold, Mercy must answer one final question. Will Mercy be able to answer that question or will her own secrets shock her to the core causing an absolute melt-down. Read to find out if Mercy sticks around or runs from the only life she's known.
